

I benefit greatly from listening to XM Satellite Radio and its traffic and weather channels. XM satellite radio provides a variety and quality that are not available elsewhere like my local stations that play 1 song then 10 commercials or weather and traffic only at 5pm. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I am urging the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I and my family demand and deserve. Sincerely,  
Stephanie Hollandsworth
